

FluQuadri Vaccine Consent Form

Before agreeing to receive the flu vaccine, please read the **Consumer Medicine Information (CMI)**.
The CMI is available from the Vaccine Officer.

MEDICAL HISTORY

Please answer the questions below to allow us to assess your suitability to receive the flu vaccination:

- | | | |
|--|------------------------------|-----------------------------|
| 1. Have you ever received a flu vaccine? | Yes <input type="checkbox"/> | No <input type="checkbox"/> |
| 2. Have you ever experienced any problems after receiving a flu vaccine or any vaccine in the past? | Yes <input type="checkbox"/> | No <input type="checkbox"/> |
| 3. Are you allergy to eggs or egg products? | Yes <input type="checkbox"/> | No <input type="checkbox"/> |
| 4. Have you had any severe allergies (to anything) in the past? | Yes <input type="checkbox"/> | No <input type="checkbox"/> |
| 5. Do you have a high fever or are you currently unwell? | Yes <input type="checkbox"/> | No <input type="checkbox"/> |
| 6. Do you have a history of Guillain Barre Syndrome?
(severe muscle weakness) | Yes <input type="checkbox"/> | No <input type="checkbox"/> |

| 8. Do you have any medical conditions that the nurse should be aware of prior to you receiving a vaccination (such as, a chronic illness, bleeding disorder, do not have a functioning spleen) | Yes <input type="checkbox"/> | No <input type="checkbox"/> |
- Woman Only: The flu vaccine can be safely given during any stage of pregnancy <http://www.immunise.health.gov.au/>
- | | | |
|--|------------------------------|-----------------------------|
| 9. Are you planning a pregnancy, currently pregnant or breast feeding? | Yes <input type="checkbox"/> | No <input type="checkbox"/> |
|--|------------------------------|-----------------------------|

The flu vaccine is very safe and generally people have no reaction. The most common side effects are tenderness, swelling and redness at the injection site which usually disappears within a few days. A small percentage of people may experience a mild fever and feel unwell for a few days – this is not the flu. These symptoms clear up within a few days.

It is recommended that all people who receive the flu vaccination remain in the vicinity for 15 minutes in case of an allergic response.

I have read and understood this information and the Consumer Medicine Information for this vaccine.
I consent to receiving a flu vaccine injection.
